ATTACK AUTO CLUB'S WAR ON GAS TAX BILL

"AND HE BOWED HIS HEAD AND DIED"

CLAIM HOUSE VICTORY

Statement Contends Need of
Additional Revenue for
Highways

COLUMBUS, March 26 — Attached to the Automobile Association of Ohio six members of the house of representatives signed a statement today asking "can it" (Auto Association) to pay no attention to the action of the committees of the general assembly of Ohio and really browbeaten Gov. E. Cooper in adopting its policy against the increased gas tax measure against the real wishes of the people of Ohio?

The tax representatives, all supporters of the measure which would raise the gasoline tax from three to four cents are: L. R. Boswick, Ellis Hancock, Dallas Sullican, Stanley Hartman, Bert Shepherd and Henry F. Ault.

General Appropriation

Their statement contended there is

need of additional revenue for high-

way construction, and attacked the

remaining dollar appropriation

which was included in the general ap-

propriation bill for the improvement

of township and county roads.

The statement charged that the

Automobile Association is "really an-

itself."

"We want the public to know," the

statement concluded, "that this or-

ganization is now trying to prevent

the governor of Ohio from permitting

the gas tax to pass, and make the

use of the road tax. They require

they cannot control the general as-

ssembly, and they are trying to brow-

beat Governor Cooper. They cannot

do it.

The representatives who issued the

statement claim 102 votes will be

cast for the gas-tax-increase bill in

the house. However, Senator Allan G. Alder, door leader in the senate, today declared that the measure will

be defeated in the upper branch of

the legislature.

No Frills, Says Hoover

Strange Old Chinese

Lamb Heals Up Again

Billionaire Farmers

BY ARTHUR BRISBANE

A GOVERNMENT without frills, he is going to abolish much of the bussiness. He might well abolish the Hoover plan. It is a bad thing for banks and worse for industries, now able to finance themselves if they have good reputations and records by stock sales.

SENATOR McNARY, head of the committee on farm relief, asks John D. Rockefeller Jr., Henry Ford, Charles M. Schwab, J. P. Morgan, Paul M. Warburg and Owen D. Young to give advice.

The interesting collection of farmers would probably tell the farmers first of all to organize their business, eliminate lost motion and time, including an hour and a half for the hired man to harness and unharness the team. But Rockefeller, Schwab and Young decline to advise. Morgan is in Europe. The farmers will have to work out their problems.

A VERY old Chinese statesman named Wu Tze-Hui, was one of three that on their word of honor guaranteed the life and safety of Li Chai-Sun, governor of Canton. Yesterday Li Chai-Sun was executed by the Nationalists, in spite of his guarantee. The aged Wu Tze-Hui considered himself disgraced and killed himself, although he had nothing to do with the execution of the man guaranteed. Many westerners will find it difficult to understand that suicide.

Wall Street is many things, but NOT dull.

Speculators that had been paying 25 per cent for borrowed money on Wednesday, could borrow yesterday morning for 15 per cent, and were quite happy. They almost thought "cheap money" had come back. Later in the day they borrowed at 10, and 8 per cent, and their childish game knew no bounds.

Little lamb heels went up in the air and so did stock prices. Much talk filled the air of mergers, combinations of stock, all the trimmings that go with the Wall Street table d'oeuvre.

The signs all up and down the

Bankers could lend only on good collateral paper, they wouldn't lend

commercial borrowing is not what they do. Ask any banker.

Great corporations, once heavy borrowers, have made so much money that they are now heavy lenders, competing with banks in the call market.

Other corporations that need money do it by selling stock, financing them in the open market instead of borrowing.

WOMAN, GIVEN LIFE TERM, WINS RETRIAL

Was Charged with Participation in Robbery of Inhabited Dwelling

YOUNGSTOWN, March 23— Ruth Livermore, 22-year-old school teacher, serving a life sentence at Marysville reformatory for alleged participation in a burglary committed by her husband, today was granted a new trial by the court of appeals.

Her conviction, her attorneys say, was the result of a misapprehension which led her to plead guilty. Judge David M. Thomas, of Marietta, sentenced her to life imprisonment under an Ohio law which permits this penalty for burglary in an inhabited dwelling.

Rep. William H. Lafferty, of Kansas City introduced the bill and asserted: "If the legislature votes as I

drinks, there is victory ahead."

SIX MEN HURT WHEN

BLIMP BLASTS LOOSE

LAKEHURST, N. J., March 23—Capt. John McClellan and five men today were suffering from injuries sustained when the army blimp PG-101 tore loose from her mooring mast here last night.

Captain McClellan had both legs,

his right elbow and his left arm

broken in the crash of the blimp in

a nearby swamp. Three others who

were with him aboard the ship re-

ceived minor injuries and two mem-

bers of a ground crew which at-

tempted to hold the ship suffered

broken ribs when they were dragged

across the field.

IMPEACHMENT CHARGES

WILL BE HEARD MONDAY

BATON ROUGE, La., March 25—

The house late yesterday set Monday

night as the time of the hearing of

impeachment charges against Gov.

Hoover P. Long, and then adjourned

for the weekend.

This action followed a short session

at which a committee of 34 rep-

resentatives was named to examine

the witnesses of the hearing.

MORAL "TURP"

Labor Department Seeks To Deport

Italian Opera Singer

NOW YORK, March 23—The old

charge of "moral turpitude," which

once haunted the Countess Catcart,

has been revealed as the reason behind

the department of labor's attempt to

deport Giuseppe Danise, star baritone

of the Metropolitan Opera company.

A hearing is due soon in federal

court on the labor department's peti-

tion asking that Danise's citizenship be revoked and that he be sent back to Italy.

The moral turpitude charge is out-

of date, having been obtained in

Brooklyn by the batoniere's wife in

1925, when she found him living with

another woman, she claimed.

15 to 20, and committee workers are

being selected by John Pierce, chair-

man of the board of directors. The

work will be done by volunteers this

And they said, "Jesus of Nazareth."

Jesus answered, "I have told you that I am He. If therefore you seek me, let these go their way."

Jesus answered, "If I have spoken evil, give testimony of the evil; but if well, why strike thou me?"

And Annas sent Him bound to Caiphas, the high priest.

And Simon Peter was standing and warming himself. The other disciple, who was known to the high priest, went out and spoke to the priests, and brought in Peter.

The sole is in three sections so the foot can be bent comfortably. This type of evening slipper or sandal has a heel on the edge of the sole and nothing over the heel and toe except a few straps. Aluminum is used at the edge of each wooden section to add durability. The new light-weight, flexible sole will be found on beach, boudoir, sports and afternoon slippers as well as evening slippers. Many layers of leather are sometimes used in place of wood.

NEW HAMPSHIRE ALLOWS CARS FROM OTHER STATES

CONCORD, N. H.—Properly registered out-of-state automobiles may be operated on New Hampshire highways without registration in this state, according to a bill passed in the New Hampshire Senate. Supporters of the bill believed that the free use of the highways will result in favorable publicity for the state. Revenue from out-of-state registrations last year amounted to \$6,440.

The Maine legislature passed a similar act for the same purposes two years ago.

Now is the period of time between a while ago and after a while.

"MY MASTERS AND BROTHERS"

Memory Verse for Good Friday
"Whosoever will come after me, let him deny himself, and take up his cross, and follow me." (Mark 8:34. Read: Mark 10:15 to 37.)

MEDITATION: It was with a true appreciation of its significance that the church made the cross the symbol of the Christian religion. In a comprehensive and eloquent gesture it both tells a story and announces a program. So it is very dear to me as it repeats sacrificial life behind me which I benefit; and it is alarming as it summons me also to the life that is heroic, unselfish and sacrificial. On this Good Friday I must challenge my soul to an accounting. Am I seeking safety first? Considering

my own ease and comfort, choosing the path of least resistance? This is not to follow Christ. It is not good living, for all great living is sacrificial. We rise in strength and stature by self-denial.

PRAYER: O God I thank Thee for thy great grace. My love in Christ whereby He endured the cross, bearing the shame of it. And I pray that thou will deliver me from the love of fear that I may encounter thee and embrace salvation faithfully. In Christ's name. Amen.

THE MARION WATER CO.

Announces, in accordance with its plan as published in The Marion Star of Thursday, March 21st, that the following summer schedule of rates will be in effect for all users of water, beginning with the meter reading period May 15-28, 1929, and continuing through the summer season of 1929, ending with meter reading period October 15-28, 1929.

First	1,000 cubic feet per month 43c per 100 cubic feet
Next	4,000 cubic feet per month 40c per 100 cubic feet
Next	10,000 cubic feet per month 30c per 100 cubic feet
Next	15,000 cubic feet per month 25c per 100 cubic feet
Next	20,000 cubic feet per month 15c per 100 cubic feet
All over 50,000 cubic feet per month 10c per 100 cubic feet	
Minimum charge \$1.40 per month for the $\frac{3}{4}$ inch services	

The reduction in the minimum bill of all customers having a $\frac{3}{4}$ -inch service is at the rate of \$1.20 a year. This means that in using our service a consumer pays as a minimum, four and two-thirds cents per day, for which, ten and eight-tenths cubic feet of water may be used.

The very low rates for larger users are made for two reasons. It costs less to furnish a larger amount of water to one customer, and it is advisable that service be afforded, even at a sacrifice, to any industry which gives employment to the people of Marion.

The present rates which will be replaced by those above are:

First	1,000 cubic feet per month 45c per 100 cubic feet
Next	4,000 cubic feet per month 40c per 100 cubic feet
Next	10,000 cubic feet per month 35c per 100 cubic feet
Next	15,000 cubic feet per month 30c per 100 cubic feet
Next	20,000 cubic feet per month 25c per 100 cubic feet
All over 50,000 cubic feet per month 20c per 100 cubic feet	
Minimum charge \$1.50 per month for the $\frac{3}{4}$ inch services	

It is hoped that conditions will warrant making the summer schedule a permanent one.

Returning from Athens the Graf Zeppelin attained a speed of 112 miles an hour. Something of a development that from the dirigible Roy Knabenshue used to pedal around race tracks twenty years ago some thing like 110 miles slower!

Larking about low down tricks now also classify that of getting twenty two boat leggers to rush with their thirst extinguishing wares to give relief to the guests at a social function in one of the city's swellest apartment houses only to discover that the host was the city's chief of police and suffer arrest and the confiscation of their liquids?

The women of the Stellar town of Noto have suffered into written promises to abandon their knee length skirts and wear skirts reaching within four inches of the ground to repudiate the license of pagan immodesty in dress and recruit Christian decency. If the movement spreads it's going to take an awful lot of recruitment.

When Clarence Dixon who in the past has been so vitally interested in the welfare of the criminal world started to attack the courts in a speech before the Illinois state senate Wednesday he probably overlooked the fact that one of its members is a former assistant district attorney who had the goods on him. Senator Clarence will probably closely examine the next legislative gun he attempts to handle before blowing into its muzzle.

A Bird in the Hand

It is always interesting to know what our neighbors are saying regarding us particularly is this true when interests are so common for if we have any desire at all to maintain peace we can then set about keeping it. Grievances have a way of appearing when they are known by both parties and are discussed face to face.

The Ottawa Citizen an outstanding Canadian newspaper recently had this to say: If the good will of South America is worth cultivating—by the United States—surely the good will of Canada is worth keeping.

On the face of this assertion it would seem that the United States having put Canadian good will in the bag is forgetting the purpose strings while busy hashing for the good will of South America.

What troubles are these that sit our friends on the north? The one of longest standing probably is our failure so far to repair the difficulties incident to the excessive diversion of water from the St. Lawrence system by the Chicago drainage canal.

Infiltrations of more recent days however are perhaps more galling. The action of the United States radio commission in granting but six of the 100 practical routes leading channels for Cincinatti has done a great deal to the taste in the mouth. The Canadians are wondering and quite right just where and how we came into possession of this implied dominion of the air.

They fall on to go enthusiasm is over our expressed insistence that power be developed by the proposed S. Law since we were in Canada may be export for our use. They have finally no love for the Hox bill which places S. Law's actions on the tree passing of the border.

The United States and Canada have to a long time lived as neighbors should live. As new conditions arise which tend to cause slight friction the peoples of two nations must get together and solve them. We have no fears that the same will not be done.

Calvin Coolidge on Preparedness.

Former President Coolidge's contribution to the American of the Ladies Home Journal is a move all doubt had any editorial commitment to a policy of adequate preparation; preparedness and he makes plain his opinion of adequate preparedness by saying that our national defense should be strong. It is time to give notice to others that the world will be a great deal of pain in God's attacking us but not so long as the outcome would feel that we would rather than in attacking others.

If I am off or government Mr. Coolidge is to maintain order that the citizen may enjoy peace at home and peace abroad and to the ends our preparedness must run all the way from the policeman on the corner to our army and navy with their supporting militia and bases.

We do not have time. Mr. Coolidge says, for the purpose of making war but for the purpose of preserving peace. The ability to protect the people within its borders and to insure to them the security which only can come from the orderly administration of law is so rich and so peculiarly the first requisite of a free government that under international usage civilized nations do not recognize a government which can not or does not meet these obligations.

Having paid extended tribute to preparedness as an agency for peace Mr. Coolidge then considers it as an agency for defense against encroachments upon our peace.

While I have discussed national defense, largely as a method of preventing war, he says, it has another aspect which likewise is of extreme importance. Perhaps peace is an ideal that can come only to future generations which are more perfect than our own. Meantime we should take every precaution to prevent war of which adequate defense is one. But we should also take every precaution to protect ourselves to the fullest possible extent from its ravages if it does come. The army and navy serve the double purposes of prevention and defense.

We have given here a fragmentary outline of some parts of the former president's article but quoted other parts without even so much as pretense at covering it as a whole but merely to bring out the views of this calm dispassionate man who for something like six years served the people of the United States so splendidly as their president, a man so generally recognized as of exceptional worth that the presidency could have been his again not by expressing desire for it but merely by refraining from declaring that he did not choose to be a candidate for the honor.

One purpose in thus bringing out his position on national preparedness is that those who have not read his article may compare his position with that of the pacifists, the internationalists, the parlor plunks, the rodes, the various organizations good bad and indifferent, some of them mixed and some disloyal who combined in purpose if not in association in an attempt to defeat the cruiser bill and hamstring the national preparedness policy of the government.

And we put it squarely up to the reader to decide in his or her mind which is the better guide which the safer counsellor for the country's good—this man who has been tried and found not wanting or the entire composite of the forces at that time arrayed against the government's program for adequate national defense. Is there, of all those who cried out against national preparedness at that time a single one the the country would be willing to trust in the high place vacated on March 1 by Calvin Coolidge?

We can not say that they are getting the proper medicine for what's ailing them but we will go this far with Will Hays in his statement that the talkies are stimulating the movies they certainly are in need of stimulation and an awful lot of it at that.

Referring to Alanson B. Houghton retiring American ambassador to Great Britain a London cable says he has disbursed the British mind of the idea that all American ambassadors are public entertainers to be called on for amusing speeches and restored to the ambassadorship the dignity it should possess. Who has been guilty of the low comedy stuff?

The impetus of Rome intimates that a lot of Italian deputies have required the swell head at the result of the recent sweeping victory the victims of the moment strutting about like turkeys unaware of the fact that the victory was Mississippian not theirs. Nothing odd about their trees. We have seen men over here kill off the same way when swept into office by presidential landslide who couldn't be elected as dog catchers on their own merits.

If I will pass by the Ohio senate becomes a law it is going to take more than the customary five dollar donation to the Ohio National guard to entice good citizens to escape jury service. Under the terms of the bill enlisting members of the O. N. G. will be liable to service with membership to escape one of the taxes and citizen ship.

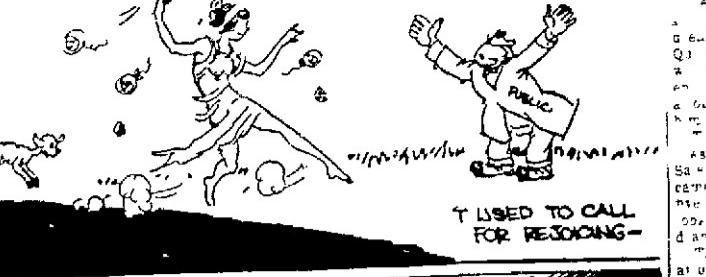

The French government has faulted Mme Foch for occupying her present place of residence as long as she lives and will tell what she will receive in the way of the marshal's pension upon her death of \$1,000 a year which is to be divided among her children until they reach majority. Mme Foch has not yet received any advice for rheumatism in the joints?

Stomach Ulcers

BY ROBERT COFLAND M.D.

A few days ago a member of the congress came to talk with me about his father who has ulcer of the stomach. By my odd coincidence I sat next to him that evening who confided to me that he was very sick about his food because he has a tendency to the same trouble.

It is really remarkable that our poor abused stomachs do not rebel more frequently than they do. We put into them almost everything except kitchen stove. But in spite of all intestinal possible extent from its ravages if it does come. The army and navy serve the double purposes of prevention and defense.

A more honest lie would at least have mentioned that Mr. Hoover and four of his six million

more colleagues are what Americans like to know as self made men. Only two members of the cabinet were born with silver spoons in their mouths but they have ailed substance and lustre to their inheritances by their own industry. One of these has already served in the cabinet for eight years with conspicuous ability and devotion to the public interest.

A government should reflect the genius and condition of the people. While we were a nation of wood hewers and drawers of water Jeffersonian simplicity was well enough although nine points of it were strict Islam and democracy. The tradition of this simplicity survives as jolts and herbs have in English court rooms to wait off the plague but it hardly fits the wealthiest nation in the world. Washington was reported in his day to be the richest man in the country. The majority of the men who dominated the government down to the proletarian revolution headed by Andrew Jackson were men of substance who today would probably be numbered among our 10,000 millionaires. They too established a tradition which we are not reverting to.

The fact that a man has wrestled a mill on for hours from a niggardly and close-fisted world does not necessarily remove from sympathy with us fellow men who are all trying to vindicate us as simple but it does give room so that he will have the large problems which the cabinet has to deal with more competence than may be expected from a man whose contacts with similar problems in private life have been a series of complete or comparative failures—Detroit Free Press.

The ulcerous disease is produced by ulcer of the stomach in the tissue and extent of the ulceration induration or dyspepsia is the first sign in a severe case there may be sickness at the stomach and vomiting.

If the ulcer son is deep enough to involve the blood vessels there will be bleeding. The vomited material may be stained with blood. In some cases quantities of blood may be expectored.

There is pain and this is a marked symptom of the disease. The pain may be burning or drawing in its nature. It is worse when the stomach is empty. The victim learns very quickly that taking food stops the pain.

There is tenacity on pressure. Effort is made to loosen the clothing in this region.

Most persons who have ulcer begin to lose weight. I myself have lost nearly very thin.

Let me say at once that large numbers of ulcers heal of their own accord. It is a slow process taking months and even years possibly.

In the meantime rest in bed is imperative. This is true whether the ulcer is in the stomach or in the duodenum.

With the patient resting the physician will seek the cause. Since infection is believed to be the chief factor he will examine teeth gums tonsils and nostrils and other parts of the body to find a cause which may be located.

We will assume that the focus of infection is located and removed. In the meantime the patient is kept quiet and quiet rest is everything to do to improve the circulation and build up the health. Care in these matters will bring about a cure.

It would be interesting to know how the member of congress who brought back four bottles of liquor on his recent return from Panama votes on liquor legislation.

What's this? A 2,750-gallon still of 825-gallon daily alcohol capacity discovered in Akron. No wonder that they have been having but little trouble with rum-runners up there!

A Washington shop was burglarized, a night or two ago, and nothing but Easter hats and gowns taken. The familiar quotation should be changed to "Look for the women."

A Washington man was arrested and a charge of intoxication placed against him after a policeman saw him walk the center rail of a street car track for two blocks. It's a pretty stale of affairs when a man can not walk the straight and narrow way in the national capital without being placed under arrest!

Returning from Athens, the Graf Zeppelin attained a speed of 112 miles an hour. Something of a development, that, from the dirigible Roy Knobenshue used to pedal around race tracks twenty years ago something like 110 miles slower!

Talking about low-down tricks, how else classify that of getting twenty-one boot-leggers to rush with their thirst-extinguishing wares to give relief to the guests at a social function in one of the city's swellest apartment-houses, only to discover that the host was the city's chief of police and suffer arrest and the confiscation of their liquids?

The women of the Sicilian town of Noto have entered into written promises to abandon their knee-length skirts and wear skirts reaching within four inches of the ground "to repudiate the license of pagan immodesty in dress and recapture Christian decency." If the movement spreads, it's going to take an awful lot of recruitment.

When Clarence Darrow, who in the past has been so vitally interested in the welfare of the criminal world, started to attack the courts in a speech before the Illinois state senate, Wednesday, he probably overlooked the fact that one of its members is a former assistant district attorney who had the goods on him. Hereafter Clarence will probably closely examine the next legislative gun he attempts to handle before blowing into its muzzle.

A Bird in the Hand.

It is always interesting to know what our neighbors are saying regarding us, particularly is this true when interests are in common, for if we have any desire at all to maintain peace, we can then set about keeping it. Grievances have a way of disappearing when they are known by both parties and are discussed face to face.

The Ottawa Citizen, an outstanding Canadian newspaper, recently had this to say: "If the good will of South America is worth cultivating—by the United States—surely the good will of Canada is worth keeping."

On the face of this assertion it would seem that the United States, having put Canadian good will in the bag, is forgetting the purse strings while busy fishing for the good will of South America.

What troubles are these that stir our friends on the north? The one of longest standing probably is our failure for so long to repair the difficulties incident to the excessive diversion of water from the St. Lawrence system by the Chicago drainage canal.

Irritations of more recent days, however, are perhaps more galling. The action of the United States radio commission in granting but six of the 100 practical broadcasting channels for Canadian use does not leave a good taste in the mouth. The Canadians are wondering, and quite rightly, just where and how we came into possession of this implied dominion of the air.

They fail, too, to get enthusiastic over our expressed insistence that power be developed by the proposed St. Lawrence waterways in Canada may be exported for our use.

They have, finally, no love for the B.C. bill which places restrictions on their free passing of the border.

The United States and Canada have for a long time lived as neighbors should live. As new conditions arise which tend to cause slight frictions, the peoples of two nations must get together and solve them. We have no fears that the same will not be done.

Calvin Coolidge on Preparedness.

Former President Coolidge's contribution to the April number of the Ladies' Home Journal would remove all doubt, had any existed, of his commitment to a policy of adequate national preparedness, and he makes plain his conception of adequate preparedness by saying that our national defense should be sufficiently large to give notice to others that "there would be a great deal of peril involved in attacking us," but not so large "that our country would feel that we would undergo no peril in attacking others."

The chief object of government, Mr. Coolidge holds, is to maintain order, that the citizen may enjoy peace at home and peace abroad, and to these ends our preparedness must run all the way from the policeman on the corner to our army and navy with their supporting fortifications and bases."

"We do not have these," Mr. Coolidge says, "for the purpose of making war, but for the purpose of preserving peace. The ability to protect the people within its borders and to insure to them the security which only can come from the orderly administration of law is so much and so peculiarly the first requisite of every government that under international usage civilized nations do not recognize a government which can not or does not meet these obligations."

Having paid extended tribute to preparedness as an agency for peace, Mr. Coolidge then considers it as an agency for defense against encroachments upon our peace.

"While I have discussed national defense very largely as a method of preventing war," he says, "it has another aspect which likewise is of extreme importance. Perhaps peace is an ideal that can come only in future generations which are more perfect than our own."

"Meantime we should take every precaution to prevent war, of which adequate defense is one. But we should also take every precaution to protect ourselves to the fullest extent from its ravages, if it does come. The army and navy serve the double purposes of prevention and defense."

We have given here a fragmentary outline of some parts of the former president's article and quoted other parts without even so much as pretense at covering it as a whole, but merely to bring out the views of this calm, dispassionate man who for something like six years served the people of the United States so splendidly as their president; man so generally recognized as of exceptional worth that the presidency could have been his again, not by expressing a desire for it, but merely by refraining from declaring that he did not choose to be a candidate for the honor.

One purpose in thus bringing out his position on national preparedness is that those who have not read his article may compare his position with that of the pacifists, the internationalists, the parlor pinks, the roads, the various organizations good, bad and indifferent, some of them misled and some disloyal, who combined in purpose if not in association, in an attempt to defeat the cruiser bill and hamstring the national preparedness policy of the government.

And we put it squarely up to the reader to decide in his or her mind which is the better guide, which the safer counselor, for the country's good—this man who has been tried and found not wanting or the entire composite of the forces at that time arrayed against the government's program for adequate national defense. Is there, of all those who cried out against national preparedness at that time, a single one the the country would be willing to trust in the high place vacated on March 4 by Calvin Coolidge?

We can not say that they are getting the proper medicine for what's ailing them, but we will go this far with Will Hays in his statement that the talkies are stimulating the movies; they certainly are in need of stimulation, and an awful lot of it, at that.

Referring to Alanson B. Houghton, retiring American ambassador to Great Britain, a London cable says he has disbursed the British mind of the idea that all American ambassadors are public entertainers to be called on for amusing speeches and restored to their ambassadorship the dignity it should possess. Who has been guilty of the low comedy stuff?

The Impero, of Rome, intimates that a lot of Italian deputies have acquired the "swell suit" as the result of the recent sweeping fascist victory, the victims of the ailment strutting about like turkeys, unaware of the fact that the victory was Mussolini's, not theirs. Nothing odd about their cases. We have seen men over here attested the same way when swept into office by presidential landslide who couldn't be elected as dog catchers on their own merits.

If a bill passed by the Ohio senate becomes law, it's going to take more than the customary five-dollar donation to the Ohio National guard to enable good citizens to escape jury service. Under the terms of the bill, "contributing members" of the O. N. G. will be barred from offing such membership to escape one of the duties of good citizenship.

The French government has invited Mme. Foch to occupy her present place of residence as long as she lives and in addition to what she will receive as the widow of the late marshal, plans to pay her a pension of \$4,000 a year, which at her death, is to be divided among her grandchildren until they reach their majority. Maybe we saw the French an apology for flings at their "civility."

Two "hardened" gamblers from Chicago shed tears in federal court in Louisville when sentenced to two years in the federal prison at Atlanta for selling counterfeit government strip stamps to paste along the necks of liquor bottles. It's the same old story. Without their automatics and their bullet-proof vests and the drop on their intended victims the average "hardened" gambler usually proves to be a coward.

Stomach Ulcers.

BY ROYAL S. COPELAND, M. D.

A few days ago a member of the congress came to talk with me about his father, who has ulcer of the stomach. By an odd coincidence I sat next to him at dinner that evening, who confided to me that she was busy about her food because she has a tendency to the same trouble.

It is really remarkable that our poor abused stomachs do not rebel more frequently than they do. We put into them almost everything except the kitchen stove. But in spite of all mistreatment, digestion goes on, and relatively few persons suffer from serious stomach disease.

This organ is shaped like a pear, with the small end to the right. The large part is entered through the gullet and, after the food is prepared in the interior of the stomach, it is expelled through the "pyloric valve" into the small intestine.

The part of the intestine which immediately joins the stomach is called the "duodenum." It is at this narrow part of the passageway that ulceration is likely to occur.

Of course, the most strain, the greatest degree of pressure, will be observed in this restricted region. It seems perfectly natural for disturbance to occur here if it occurs anywhere. As a matter of fact, almost all ulcers are located here.

Time and space will not permit any extensive discussion of the different types of stomach ulcers. You may imagine a small ulcer to be similar to a cancer sore in the mouth. The acute type is small, with clean cut edges, as if it had been punched out of the tissue.

The chronic ulcer is larger, irregular in shape, and in a sense like a burn of the skin. Whether it is serious or not depends on how deeply it reaches down into the wall of the stomach.

In the dangerous case it continues to burrow until it eats its way through the wall, resulting in actual perforation.

The symptoms produced by ulcer of the stomach depend on the type and extent of the ulceration. Indigestion or dyspepsia is the first sign. In a severe case there may be sickness at the stomach and vomiting.

If the ulceration is deep enough to involve the blood vessels there will be bleeding. The vomited material may be stained with blood. In some cases quantities of blood may be expelled.

There is pain and this is a marked symptom of the disease. The pain may be burning or gnawing in its nature. It is worse when the stomach is empty. The victim learns very quickly that taking food stops the pain.

There is tenderness on pressure. Effort is made to loosen the clothing in this region.

Most persons who have ulcer begin to lose weight. Pretty soon they are very thin, very thin.

Let me say at once that large numbers of ulcers heal of their own accord. It is a slow process, taking months and even years, possibly.

In the acute case rest in bed is imperative. The true whether the ulcer is in the stomach or in the duodenum.

While the patient is resting the physician will seek the cause. Since infection is believed to be the chief factor, he will examine teeth, gums, tonsils, nasal cavities and other parts of the body to find where pus may be located.

We will assume that the focus of infection is located and removed. In the meantime the patient is kept quiet and properly fed. Everything is done to improve the circulation and build up the health. Good sense in these matters will bring about a cure.

ANSWERS TO HEALTH QUERIES

"JIGGS." Q—What do you advise for callous on the sole of the foot?

A—First soak the feet in warm water before retiring and apply warm linseed oil. Next morning soak the feet again and scrape away the dead tissue.

Timpkins—"Since William the Conqueror landed, sir."

Some one remarked of a girl with a turn-up nose that apparently her nose had quarreled with her chin.

"Well, at any rate," said a wit present, "words have passed between them."

"Who is the handsome stranger with whom you danced at the night club?"

"I don't know," answered Miss Carenne.

"But he is so handsome and so strange that I think maybe he must be a prohibition agent!"

WASHINGTON March 29—Secretary Henry L. Stimson was today confronted with the most internationally acute aspect to grow out of pro-tariff men.

The three nations Great Britain and Canada who with the U.S. will make a drive with their naval forces as their weapon to force the scope of authority of America's government on the seas in enforcing domestic laws.

The sinking of the U.S. gunboat "Algonquin" and the killing of a French member of the crew by a German cutter "Dexter" under command of Boatswain Frank Paul two days ago today in the Gulf of Mexico brought down on the State Department's chief probably all the coast guard in

the public office of the U.S. and Canada and France and has raised the question of whether the League of Nations should be made responsible for the enforcement of the League.

The minister is asked to resign two weeks after he became U.S. Ambassador to Canada.

The American government has agreed to treat Canada's demand that the U.S. do the same.

It is expected that the four bank robbers will be sentenced by Judge Fred L. Hay Saturday.

Four Will Be Sentenced for Participation in \$9,000 Robbery

DEFIANCE March 29—Joseph Kowalski, 32, today faces sentence for participation in the \$9,000 robbery of the National Bank of Defiance, near here, a month ago.

Six men and five women composed the gang which returned a guilty verdict against him after a deliberation of more than three hours last night.

Kowalski claimed to have been at his home in Monroe Ind. at the time of the robbery but the testimony of LaVerne Stevens, Bernard Maynard and Melvin Hattenbach who pleaded guilty to the robbery and who declared Kowalski participated with them in the crime convicted the Indiana man.

It is expected that the four bank

robbers will be sentenced by Judge Fred L. Hay Saturday.

Stanley West, Former Navy Seaman, Found Dead at Davids at Home

Stanley West, 22, a former sailor in the U.S. navy ended his life yesterday afternoon when he hung himself on a closet door in his room at the West home 454 Davids st.

His body was found by his mother Mrs. David West at 4:30 o'clock.

According to Coroner D. B. Osborn who gave a verdict of suicide by hanging the youth had been dead only a short time when the body was found. No motive for the deed could be advanced either by the coroner or the parents.

According to Dr. Osborn the youth had enjoyed almost perfect health and the parents could do little or no light on the cause of his suicide. He was honorably discharged from the navy last January at the end of a four year term of enlistment and had returned to his home here immediately after the term had expired. He had not been employed in any position since his return to this city.

West was born in Pharsburg on Jan. 26, 1907, the son of David and Sylvia McEachen West. The family moved to this city when he was a young boy and have resided here ever since.

He is survived by his parents and one sister Louise age 19 at home. Funeral services will be held Saturday afternoon at 2:30 o'clock in the West home with continued services at 3 o'clock in the First Memorial church. The Rev. F. A. Twining pastor of the church will be in charge. Burial will be made in Marion cemetery.

AIR TRANSPORT PLANE SETS NOVEL NEW RECORD

CHICAGO — What is believed to be a world's record for versatility in air transport planes is reported by the American Air Transport Association whose records show that Sikorsky has recently completed 500,000 miles in the air and carried at one time two baby grand pianos and six passengers.

It was used as a studio for the first successful radio broadcast from the air later at the original Army cigar store and between trips as a passenger carrier noted the part of a German bomber in the movies. After five years service it is still flying at the beck and call of Hollywood directors.

When the last American ambassador left Germany he said to the Germans: "I hope that our American citizens will now come in masses before the war to the country of Karl Hugel, Goethe, Beethoven and Wagner. My countrymen can convince themselves with their own eyes how finely Germany will welcome them."

Easter Programs Scheduled on Three Radio Networks

ELABORATE ARRAY OF TALENT BILLED

Religious Observance of Day To Start in Early Morning

TWO SUNRISE SERVICES

Programs on East and West Coasts To Be Carried in General Broadcast

BY MAC L. ROY

Music in keeping with the season will feature the broadcasts over the three networks of the National Broadcasting Co. and the Columbia Broadcasting System Easter Sunday. An elaborate array of talent selected from both coasts of the country will take part in the programs, which will start early in the morning.

Two sunrise services, one in the east and the other in the west, will start the Easter observances planned by the NBC system for early morning. At 7:30 o'clock the services conducted at the Walter Reed General Hospital in Washington, D. C., featuring music by the United States Army band and the Easter message by Col. Edmund P. Easterbrook, chief of chaplains of the United States Army, will be broadcast.

At 8:45 o'clock the scene will shift to the Pacific coast in Volunteer park, Seattle, Wash., where it is estimated nearly 50,000 persons will attend the annual sunrise services. The coast-to-coast network of the NBC system will bring this program to eastern listeners.

On Joint Network

Both of these morning religious services will be broadcast on the joint WEAF and WJZ network of the National Broadcasting Co. system.

"The Seven Last Words of Christ," as written by Haydn in his Quartet No. 78, will feature the Easter program of the American Pro-Art String quartet at 12:30 o'clock Sunday afternoon over the WJZ network of the NBC system. Haydn's works are filled with profound religious feeling.

A new note in the Biblical drama series will be struck at 2 p. m. when a special presentation of "The Unconquered" will be broadcast over the WEAF network. "The Unconquered" is one of the most unusual narratives penned by William Ford Manley, author of the Biblical series.

"The Resurrection of Humanity" is the Easter subject of Dr. Stephen S. Wise to be broadcast at 8 o'clock. Rabbi Wise's talk will be heard over the WEAF network of the NBC system.

"The Problem of Death," an address by Dr. Daniel A. Polling, and appropriate Easter music will feature

itself and the condition which led to the tragedy increased meanwhile it was manifested all over the country. Persons who never knew the De Kings telegraphed the family all they could offer of comfort and assistance to prevent the guilty.

There were thus important late developments.

The first witness to give witness to the killing of Mrs. Lillian De King stated that she was sitting in a chair holding a telephone when she was shot to death by Deputy Smith.

Rep. J. P. O'Grady of Chicago announced he would introduce a resolution in the legislature providing for investigation of the Aurora outrage.

Attorney General Carlstrom said he would send an observer to the inquest Tuesday and investigate.

Smith's plan of self defense

J. Gross, D. Cuthbert, Evans

County state's attorney continued to make inquiries regarding the case. He excused his attitude on the ground it would be improper to discuss a matter in which the attorney general had taken charge.

The only item brought to light which tended to favor the prosecution

was news from Rockford that Joseph De King had been convicted of a liquor charge in Lenawee

two years ago and had been fined \$100

and sentenced to 90 days in jail.

AURORA, Ill.—March 29.—The stories of two hot-tempered witnesses in the Aurora dry raid that resulted in the killing of Mrs. Lillian De King may never be told in court.

Boyd Fairchild, the mysterious man who testified he bought a pint of moonshine in the De King home has fled.

None of the responsible officials of Kankakee county could account for his whereabouts.

Roy Smith, the deputy sheriff whose hair-trigger finger caused Mrs. De King's death, is in a critical condition in St. Joseph's hospital at Elgin.

A bullet wound inflicted by the 12-year-old boy who defended his mother has become infected. Smith must fight against a lingering death from gangrene.

BRITISH TRAINS TO RUN AT 100 MILES PER HOUR

LONDON—British railroad engineers hope shortly to be running their express trains at 100 miles per hour. Locomotives now being designed are producing engines of far greater speed and power than those hitherto in use.

Already an engine named the Duke of Cambridge—a name by the Great Western Railway has traveled at the rate of 102 miles per hour with the Atlantic mails from Plymouth to Liverpool and there are every reason to expect seeing what it has done for me.

WITH EDNA S. DUTTON

Believable people with sympathetic depth. Kathleen Norris' new "House" released from her former & Company. The story around the Delta members one admires so much, but with whom her never could negotiate. They are not the neighbors for a family sufficient even when it comes to most serious of questions. Norris has chosen for the second home "Storm House" in Los Angeles along the coast, and one finds entries in the delightful hours on the pleasure of the city only a few miles away.

Casper Delafeld who never grows up despite his years of bachelorhood and as the wife of a man manages her affairs with a past master and only she loses her head when in jealousy she keeps her husband a much coveted hunting friend.

Delafeld the author's first mate human and gets no enjoyment in telling and retelling his as an invalid her marriage well who is 10 years her and planning affairs of his old age admiration dueling again play is run by the in following Jerome Delafeld step with affairs after the war and filled with a sickness of things in general Jerome and happiness with F. S. Storm House life seems come with the birth of little Carroll. One could ask for an introduction to a happier family than the one on the Pacific coast at Los Angeles from Elsie's half sister her husband Sylvia and Garth. Many folks of the world bring impasses from New York and European countries and Garth's attempts to make love to Jane who is at first a newcomer in the Delafeld family brings a little rift into the picture. At Elsie's death Carroll is placed in a girls camp only to be in all with homesickness for Jane's abduction from the camp by

Jane as the result of the family's life with Jane as the wife of Delafeld. Jane mixes with the family and all goes well until the beau of Jane's affections is a Storm House who is preparing to divorce her as usual. How the lives Jerome first to San Francisco and later to New York where he later awakes to the realization of what he had lost doesn't cheapen the story as one might suppose, but as strengthens the plot.

The reader falls in love with James' grandpa and Aunt Sam who are on cross word puzzles and are always entering chocolate cakes and evenly browned loaves of bread in Mechanics Fair and Industrial exhibits and Progress clubs. Always wearing blue ribbons. Grandpa who always had a hot mated mul before retiring and the uncles who played cards make up the rest of the household when Jane spent her early childhood with her mother who was so desperately determined to win for her child more than she had ever had herself.

Fiction Tells Tales of Real Life

FACTS of life are sometimes anticlimatic in the pages of fiction and the strange case of John Hubert who for many years was an executioner at Sing Sing and other state prisons may be cited as an example. His recent suicide led those connected with the prisons to think that the apparent calm with which he conducted the executions (140 in all) was merely a veneer and that the taciturn little man was in reality preyed upon by his conscience.

Aloof from his fellow men avoided by everyone it is reported that "at Sing Sing there was no friendliness felt toward him by his fellow employees and tales are told of his original and curious ways.

Strangely enough there is a novel which curiously echoes in ones mind in reading of this actual execution. When Hanging Johnny by Shirley Johnston was published it was hailed as a most impressive piece of fiction. Telling the pathetic career story of a professional hanger it made a deep impression. Finding as the life of John Hubert has there is a surprising similarity in many features between them. Many stories are told of the slings dropped around little man and his work at Sing Sing and every one of them seems strikingly like the tone of the novel Hanging Johnny written over the ocean in Ireland.

ACCUSE STATESMAN OF RUM SMUGGLING

M A Michaelson of Chicago Is Named in Removal Warrant

Continued From Page One
last October has never been disclosed up to trial action remains to be taken.

Michaelson, who represents the seventh district of Illinois, was endorsed by the Anti-Saloon League in his recent campaign and only a month ago voted for the laws, a which makes violations with as he has been indicted for punishable by five years in prison with a fine of \$10,000.

The deputa turned down to divulge much information about the indictment of the congressman, but it was learned that it followed a visit to him in Cuba last fall. He came through the port of Key West with his trunk his suitcase being impeded by the customs authorities at Jacksonville the trunk sealed and was seized by state prohibition agents as it was charged.

Representative Michaelson has served eight years in congress and is starting into his fifth consecutive term. He is a native of Norway coming to America when a small boy. For 16 years he was a school teacher. He broke into politics as an alderman in the Thompson organization and later came to Congress. He is 51 years old.

Reform Comment

Why the news of the congressional indictment has been withheld so long the department of justice would not say. However if the indictment was returned last October it is apparent that the Chicagoan served throughout the last session with it hanging over his head and that he voted for the Jones law while himself indicted under the Volstead act.

The Michaelson indictment again served to focus attention in Washington on the congressional party which returned from Panama last Monday. Their arrival was followed by reports that some members of the party were allowed freedom of the port which strictly speaking is against the law in itself and that thus given an immunity both by the ports brought in the forbidden fruits of the wet canal zone.

The party included some well known men in Congress among them Representative Hudson, Republican of Michigan; Representative Morgan, Republican of Ohio; Representative Gibson, Republican of Vermont; and Representative Hastings, Democrat of Oklahoma.

BANK SALE PLANNED

At the time was present socially and with sewing the sale meeting will be April 2 with Mrs. Wesley Miller, 1st Ward.

"FRIENDS LAUGHED WHEN I STARTED TO TAKE KONJOLA"

"But in a Few Weeks the Laugh Was on Them," Says Happy Lady Freed from Rheumatism

MRS. MANNING FASSETT

"My friends told me that Konjola would not do me any good," said Mrs. Manning Fassett, Route No. 1, Ashtabula, Ohio, although they admitted they did not know anything about this new medicine. I had been troubled with rheumatism all over my body, and my legs arms and feet were badly swollen. I would not be able to walk for two hours after arising in the morning. The pains were almost unbearable and I could hardly stand it. I was unable to get any relief although I had tried many different remedies and treatments.

"The drug is now on my friends. The first week of treatment with this new medicine proved to me that I had at last found the right treatment. Gradually the pains became less and less and when the sixth bottle was finished I was entirely rid of the terrible rheumatism that had distressed me for years. The friends who ridiculed Konjola now praise it after seeing what it has done for me."

Konjola is different than any other known remedy in this section. It contains two juices extracted from natural plants which minister to the stomach liver kidneys and heart to a more healthful action. The effect of this Konjola on the entire system brings relief relief in case of suffering that has been going on for years. At the same time many weak and tired systems have been restored to a new state of health through this compound. Such a large number of men and women in this area have told of their experience with this new medical product until now Konjola is the most highly endorsed medicine that is known in this section.

Konjola is sold in Marion at Slump & Sons Pharmacy and by all the best druggists throughout this section—Adv.

SEEKS TO RELEASE HIM

PHILLIP therefore with to Him Spoketh that not to me knowest thou not that I have power to crucify Thee and I have power to release Thee?

Jesus answered Thou shouldst not have any power against me unless it were given from above. Therefore he that hath delivered me to thee hath the greater sin.

And from thenceforth Pilate sought to release him.

But the Jews cried out saying If thou release this man but thou art not Caesar's friend for who seer maketh himself a king.

him to them to be crucified.

They took Jesus and led him forth and beheading his cross

He went forth to that place which is called Calvary but in Hebrew Golgotha where they crucified him and with him two others one on each side but Jesus in the midst. And Pilate wrote a title also and he put it upon His head and they put it upon His purple garment. And they said to him and said

WHAT IS TRUE CROSS IN CITY

A relic of the true cross upon which Christ died is in the possession of the Rev. William J. Spickerman, pastor of St. Mary's church. It was revealed

to him in a dream.

The piece of wood is encased in a Mosiac cross which the priest obtained from Italy. The incidents of the crucifixion are pictured in the mosaic. This cross in turn is encased in a gold plated cross imported from France.

The cross was exposed at St. Mary's church during today's services.

Then said then one to another Let us not cut it but let us cast lots for it whose it shall be that the scripture might be fulfilled.

They said to them Let us cast lots for it.

And the soldiers did these things. Now there stood by the cross of Jesus His mother and His sister Mary Magdalene and Cleophas and Simon the brother of Zebedee.

When Jesus therefore saw His mother and the disciple standing whom He loved He saith to this woman Behold thy son.

After that He saith to the disciple Behold thy mother.

And from that hour the disciple took her to his own home.

AROUND this time of year it is a good thing to put out birdseed and other food for birds if you haven't been doing it already. Pot-suckers are very industrious at this time and they often work before with stems of young trees, particularly pines. We have seen a lot of young beech trees completely girdled by

before the hot weather sets in. Once in a while, it will fry in the sun and leave a few leaves and a stalk. When hot weather comes there are lots of bugs and other things for birds to eat.

Laws of Trimming Shears

There is a least way to do everything. Many amateur gardeners give little thought to the way they handle pruning shears.

Always work with the cutting blade lowermost so that you pull it upward, though the pressure is downward on the handle of the cutting shears. This allows you to cut smoothly and close to the stem from which the pruned shoot is removed. It is much against possible stripping of bark resulting from a downward cut.

Watch the "set" of the blade. Don't let it get sprung.

Never use shears that are dull. Keep them sharp as you work.

Attractive Lawn

This is the time of year when much can be done to make the lawn attractive. Whenever you see a beautiful turf such as one finds on a golf green, you can rest assured it is the result of two lines of effort—one the proper preparation of the soil foundation, and two, the proper maintenance.

A lawn must be kept in good condition once it gets there. First of all, there is a grass feeder. It must be fed continually. Periodic dressings of fertilizers are needed even if the lawn looks as if it is growing well. Underneath the grass has a constant battle for nourishment. Often grass dies under trees—not from shade but from soil impoverishment. It pays to feed both the grass and the trees. Frequent mowing is likewise essential. When the grass is growing rapidly, it must be mowed often—sometimes as much as twice a week. When the clippings are short, it does

the boring of these insects make a good deal.

Put out some food for these birds in a place where they will easily find it. While it may not distract them entirely from the sappy trees it will lessen their depravity appreciably.

If you tie out in a tree remove it.

An Obsolete Trade

WITH the advent of modern concrete built homes in the crowded sections of cities fences have been taken down or completely neglected and the usefulness of the old time dark whitewasher is no longer recognized. Time was when it was a very familiar sight to see a dark traveling down the little paths here and there our own man carrying a basket in one hand and a bunch of brushes in the other with whitewash smeared all over his close cropped hair and spattered on his usually immaculate white dress. The sign of the brush and bucket denoted their trade.

Whether it was the fact that the trade was no longer a paying business or whether the darkies lost their desire for such a contrast as black and white and a position that changed black to white that caused this class of workers to disappear is hard to tell. But one very infrequently sees a whitewasher today. They are no longer in vogue and almost all houses formerly white-washed each season, now are either painted or left plastered in their original colors.

Back to Nature

NATURALNESS In women is again coming to the surface figuratively and literally. With spring season coming on full force ahead those of the fairer sex have adopted an entirely new set of cosmetics and accessories to replace the pink

Colonel Wm. C. Hodges above of Louisiana commandant of cadets at West Point, succeeds Col. Osman Latouche as military aide to the president.

and white powder used previously. A trip through the local stores reveals sunburned shades of hose, shoe, gloves, hats, buckles, dresses and even powders and rouge. The powder is a new thing on the market and according to the sales proses to be appealing to the young and it is safe to say that it will be adopted later by the more matronly. It is a cross between a brown and a flesh and when applied literally gives the appearance of a beautifully tanned cheek. Instead of the former snow and rose combination, the vogue is now peach and cream, and thick yellow cream at that.

Of course the powder is not adaptable to all sorts and types of persons but if your skin is unusually fair a blend of about half matron and half flesh gives delightful results.

It is not natural in the true sense of the word but makes a pretty good imitation until the real tan can be acquired. It will serve to tone the skin for evening where the lighter powders merely left a white flour upon the skin. What will the beauty specialists be doing next?

Old-Time Dances

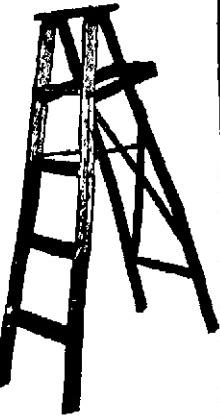

ANNOUNCEMENT that Crystal Lake will have some of the most noted orchestras in the country at its dance hall this summer gives rise to a little reminiscence. Many will remember the old time orchestras that used to furnish music for the "square dances," the "Turkey Tails," the "promenades," the "hoedown" and the various other dances held in the Old Recreation hall, or in private kitchens where there were no rugs.

About fifty years ago when a group of musicians then called "troopers" came to town, an impromptu dance was held for the benefit of all. The troupe usually consisted of three or four men each playing one instrument. The group would arrive in town playing their enticing songs and immediately plans for a dance would be made. If no hall could be found an old store room, a barn or perhaps some one's house would be used.

Everybody was invited, providing you had a fellow or a girl which ever was necessary. No court manners were used. If a fellow wanted a dance he grabbed the girl nearest him if she pleased his fancy and if not, he took some one else. After the dance, he probably said "See ya later" and left the girl to find a soul by herself. Arright of dancing masters' in the town soon changed this but the old method of dancing continued.

Usually the fun started about 7 or 8 o'clock and lasted until morning. Refreshments were always served. The occasions were rare and they had to make the best of them. Collections were taken the musicians and other debts paid and the people went their respective ways. Surely an enjoyable evening was had by all.

BILLIN—A special Institute for scientific research of tourist traffic is to be added to the Academy of Commerce.

The work of the Institute will cover the causes and the social economic and political results of tourist traffic, the study of the methods of transportation hotels, etc.

A library of works dealing with the subject will be assembled and regular instruction will be given on all phases of the traffic with special courses for directors and managers of spas, hotels, fairs, etc., this will be the first attempt made anywhere in the world to deal with the whole tourist problem along scientific lines.

OLYMPIC GAMES STAGED TO MUSIC OF ORCHESTRA

PARIS—To the music of a full orchestra Leo Staats staged a revival of the Olympic Games at the Paris Opera with the corps de ballet.

The number was an operatic Interlude entitled "The Trojan Dancers" during which the Javelins threw the discus and went through symbolic movements of the Decathlon.

This was the first Sports Ballet ever held at the Opera. It will be repeated from time to time.

Nell Brinkley Sees Big Style Changes Next Year

Famous Artist Predicts 1930 Girl Modern in Daytime Old Fashioned at Night

NEIL BRINKLEY is famous of all debutantes of charming girl types—a woman who is known to millions and whose name is a household word—predicts that the 1930 miss will be a "fifty fifty girl."

In the daytime she will be strictly modern, declares Miss Brinkley, just as charming and popular as the fashions she creates. Yes, the day girl will be going in for some of the latest and to the other more attire that looks as if it was here to stay.

What a Change!

But in the evenings that will be different. That is when the 1930 girl will become a Victorian. Yes, she'll be positively old-fashioned in her variations of crinoline—only she will prefer organza and taffeta.

And while she'll be old-fashioned under the moonlight yet you may depend upon it that Miss America will take good care to see that she is very new-fashioned in her adaptations of the creations her great grandmother wore.

Miss Brinkley is now in Hollywood where she is renewing acquaintances with movie stars many of whom are close friends of hers.

Big Reception

Her a rival in Los Angeles was the signal for such a reception as is given to few people. It looked as if the whole city was at the station to welcome the popular artist and Hollywood was deserted for the day.

Miss Brinkley made her prediction about 1930 styles at the request of a convention of Pacific Coast modistes. She is in Los Angeles for an indefinite stay.

BY BOB FELLOTT
HARDING HI-Y Harding High Juniors and the Four Point team were the three division winners in Marion County as a result of victories scored in the finals of the county amateur basketball tournament last night at the Marion YMCA.

The HI-Y five continued its triumphant march to the Class A championship, downing the Steam Shovel rangers last night 18 to 22. Central Juniors succeeded as was expected before the superior basket shooting and all-around play of the Harding Juniors in the Class B finale. But of all the basketball games we've seen you would have to go a long ways to beat the final clash of the Class C division last night. Fighting against superior height, we experienced the midsize Four Point team nosed out the rangy Waldo five in a 22 to 21 thriller. Little tow-headed Maurice Whittemore became the hero of his teammates when he threw the winning bucket with a one-handed heave exactly eight seconds before the end of game.

Shovel Outclassed

In the Class A final the Steam Shovel quint found itself distinctly out of its class from start to finish. The finished team work and shooting of the high school boys was too much for the losers in fathom Vic Gillis. Harding High forward during the past season scored 16 points to lead his team to a well deserved victory.

However it might have been all different had the Shovelites decided to let young Jimmy Lingo guard the redoubtable Mr. Gillis the entire game. As it was during the time that Gillis was under the watchful eye of Mr. Lingo he managed to score exactly three fouls. In the second quarter he was shifted to center and became the problem of Mounts, the Shovel topless man. He was much too much of a puzzle for Mounts who could never seem to find Gillis at the time he was most desired. During said second period Gillis rang up six field goals and one foul, which was decidedly more than his share.

Outside of Gillis, the HI-Y did not present any real scoring threats except Bill Roush. Gillis running mate He scored four two pointers and one-half that number of free tosses for a 10 point total. Atkinson and Mounts were the Shovel big guns with 10 and six points respectively. Keller and Lauster HI-Y guards played their usual tight defensive game especially Keller, who also managed to get through the losers defense for a five point total.

Class B Final One Sided

Central Juniors did not even give Harding Juniors a good argument in the Class B finale, although they big central back guard did a wonderful piece of guarding all through the game. He held off the HI-Y scoring center to four points and managed to get a bucket himself. His work last night rated him as the outstanding guard of his class. Price Central center made his appearance, and after about a quarter of poor basketball made his disappearance. Pickrel fed the losers attack with six points. And this colored Junior forward must have had that old rabbit foot right there last night for all he did was to score 12 points in addition to putting up a nice floor game. Klingel and Pohler Juniors guards held the freshmen forwards well in check.

As was stated heretofore this Class C battle was one grand exhibition of poor basketball good basketball and fight mixed into one shaker. The result was something to wonder at. The Little Four Point club, which looked like a motor boat beside the Leviathan at the opening tip off were outclassed all the first half and trailed by that time 18 to 10. They were not to be denied, however, and about two minutes before the game was over a bucket from the side put the Marion quint into a 20 to 19 lead. Then with one minute to play

Training Camp News Bits

GIANTS, CARDINALS AND PIRATES FALL BELOW STANDARD

Hornsby, Wilson and Cuyler Harmony Surprises Observers

By DAVID J. WALSH
NEW YORK March 29—It's really no little feat for cent on the dollar in training camp form, then it appears today that the Chicago Cubs are due to have all the early speed of the 7-6-11 in the National League. The Cards apparently are not ready as a cocked gun while all seems not too well with the Giants, Pirates and Cardinals in their initial contention. McGraw is up a tall tree with his card in hand and a couple of outsiders. In Pirates or better by probably until and at including the far that it's been managing to get along just splendidly without Paul Waner. The Cards are far from set in the middle.

The Cubs meantime seem to have been going mildly loco. Hornsby, Wilson and Cuyler don't look bad at all, especially the former who is expected to get at the something after the manner by which San Joaquin gets along with the skin. Lester all the time been sweet troutin' like if the recent series with the Brooklyn lingers mean a thing. The Cubby 11 is a team in that series prompting Stan's Hards to hit very, very heavily, too.

ROBINS BREAK CAMP
WEST PALM BEACH Fla. March 29.—The Brooklyn Robins were slated to begin a three-game series with the St. Louis Browns here today followed by two more games with the Boston Braves. The crippled Robins bid farewell to their training camp at Clearwater last night.

SQUAD RETURNS

FT. MYERS Fla. March 28—Brooklyn's coach of the 11th Interleaves leaves here tonight with a squad of players for Philadelphia where they will work out until April 6 when the rest of the team arrives. Nick Borelli, Joe Boley, outfielder Redman Hume and a catcher and three or four pitchers will compose the party.

PLAY FOUR GAMES

WINTER HAVEN Fla. March 29.—The Phils will take part in their final practice drill today then play four games before heading north April 3. All the players are in good shape except pitcher Ray Bengo who has a sore arm and are anxious to get back to Philadelphia to convince the home town fans that they are going to get out the cellar this season.

Rengert sank a bucket and it looked to be all over with Waldo leading 21 to 20 with about 30 seconds to play. Half of that time was consumed with the tip off and then came a jump ball in one corner of the court. Up went the two centers and down came Mr. Whittemore and the ball. Up shot the ball and down through the basket and the whistle blew and it was all over.

LOUGHREN RETAINS TITLE

WALKER'S AMBITION FOR CHAMPIONSHIP LEADS TO DEFEAT

Car Boxing of Tommy Carries Him to Decisive Victory

March 29—Caesar was lions and Brutus cut him Napoleon was doing great ambition for higher titles into a match with Welling

Now these eminent gentlemen learned first hand today Mike Walker, well named Ridge and his bold warhounds although it is a well fact that neither Caesar nor a mere \$50,000 in any more to apprise them to their greatest shot.

The present middleweight and former welterweight is aspiring to the light crown of Tommy Loughren put back in his place by the Philadelphia champion a way that indicated Walker no serious threat to the light division as long as it is done by a man as clever as Loughren.

Judges Agree

Walker retained his title by decision at the end of 10 rounds. He favored by both judges which referee Dave Miller's vote went for a verdict. Despite the opinions of several ring experts most of them from outside the verdict was a popular one.

The bout was the main event on opening card of Paddy Hartman's at the West Side stadium. The score when final touches have been applied will seat 2,600 and have cost approximately \$7,000 to build. Upwards of 20,000 turned out for last night's event.

In the new stadium and the huge crowd were well initiated when firemen came out to scaffold close to the wall. Firemen quickly conquered the blaze and the first inkling the latter had of the incident was when water began streaming down on main floor customers. There was a time of excitement as they vacated seats but nothing approaching a panic such as occurred in the old coliseum last Monday night.

Loughren on Defense

The main event between Loughren and the ambitious middleweight who will take his crown was disappointingly to many who expected a knock down and out affair. It was uneventful, but that—not because Walker didn't try hard enough—but because Loughren with a valuable title in stake was naturally on the defensive. He tried to pile up points while skillfully warding off the wild rushes of his bigger.

Tommy was at no time in real distress. The same may be said of Walker but Loughren kept jabbing, and left in Mickey's face and time to time he crossed over a hard right to the head. Tommy, no man killer, but as a master boxer and ring general, was far from any equals. Walker made himself cautious, and for times he tried to box with the champion.

The challenger's best rounds were the middle of the fight, from the fourth to the sixth inclusive. Tommy had him in the first three, but from the sixth on after Walker had unloosed his lightning and fueled it was Loughren by a mile. The champion's best round was the eighth when he connected with his right cross at will if Tommy had a real punch Walker would have gone out in this state.

Loughren's weight was announced as 134 nearly two pounds under 140. It is believed he was weak and to some extent in getting down. Walker scaled 165.

YANKS LOSE TWO GAMES TO CARDS

WRESTLING TOURNEY AT COLUMBUS OPENS WITH 98 ENTRIES

26 Schools Competing for National Collegiate Mat Crown

ST. PETERSBURG, Fla., March 29.—The New York Yankees will break camp to-night considerably chastened by two crushing defeats at the hands of the St. Louis Cardinals, whom they bowled over in four straight games in the world series last October. They won the final game 14 to 8 at the expense of several rock pitchers, but they achieved their 10 to 2 win yesterday with Hoyt and Dugger Miller, Huggins' aces, doing the bulk of the pitching for the Yanks.

Meanwhile Old Grover Alexander and Willie Sherdell held the Yanks to five hits, of which Babe Ruth got none.

Oklahoma A and M college is a heavy favorite to repeat as national champions, and to win a large number of individual titles.

Twenty-six universities and colleges throughout the entire country are to be represented among the 16 grapplers. Many of them have won laurels this season in their own conferences and brackets, and several of them are undefeated this year. Three of the stars have never won a championship in college wrestling, while one was an Olympic champion in the 1932 games.

Some of the largest universities in the country are to be represented including Chicago, Iowa, Illinois, Indiana, Michigan, Ohio, State, Indiana, Northwestern, Wisconsin, Iowa State, Cornell, Oklahoma A and M, West Virginia, Nebraska, Penn State, Case, Western Reserve, Ohio, Wyoming, Carroll College, (Montana), McNeese Institute, Oberlin, (Ohio), Cornell, Cornell, (Iowa), Central, Oklahoma and Virginia Polytechnic Institute.

The Big Ten will be better represented than any other conference or section with nine members having representatives entered in the meet. Western conference champion, and runner-up for last year and this are expected to carry away a few of the titles, but will meet some class and men from way out west where they grow tall and heavy.

PECK IS ASKING TRAINING

CLEVELAND, March 29.—Training has begun a bit too fine Manager Roger Pecknall announced that no training session would be held today. The Tribe men who have been working out rigorously under the Major are ready to start the season in Peck's opinion.

Easter MILLINERY Specials

Assembled here tomorrow for your choosing is a collection of new Millinery that is truly representative of the season's choicest modes.

Felts and Straws Are Equally Smart

Seldom have so many different straws been used in the creation of spring millinery. There are ball-bunids, bakous, viscas, hair braids and leghorns. Sometimes two of these straws are effectively combined in one hat. Again they are used with felt.

Here are hats to accompany the sports outfit, to wear with tailored suits, or for more formal afternoon frocks.

Behind the Scenes in Hollywood

BY DOROTHY HEPZIBETH

Marion Star Staff Writer

HOLLYWOOD—Just now it was only a farfetched idea to contemplate a star's career being ruined. Now, however, the Shattered Dream of course, is a very real thing. Its imminent possibility has Mary Pickford and her co-star, the screen's most popular girl, several days at the Artists Studio. Pickford's part, as Mrs. Miller, is dramatic and paid tribute with surprise, suspense and suspense. It is to be expected that Pickford will establish Miss Pickford as a true classic. She did much in the drama of love and tragedy. She'll gain even more.

At Last!
It seems that Lois Moran has little interest in the male species—so she demands to have a cheerful encounter with Louis, whose heart is set on an operatic career when she comes in pictures. After years of a sedate life, which attitude caused her mother to sigh, "I hope no day will pass without who will give you a thrill."

Because Lois has been working overtime in two Fox flickers she neglected going to the dentist. She had a day off recently, however, and promptly hit herself to the scintillating of glee! She returned home to remark to her mother, "I will be glad to know I've given you a thrill."

Mrs. Moran was all ears. Lois resumed, "Yes, when the dentist

unknocked an inch instrument into mouth and hit a nerve—he gave me a thrill."

EASTER breakfast! What a delightful tradition—the joyousness, the freshness of it! The delicate pink-and-white goodness of a Premium Ham seems best to preserve the infectious spirit of this charming way to start this day of days.

Swift & Company

Many of the guides to identification of the genuine Premium Ham—the branding on the rind, the sanitary wrapper, the blue tag—have become general trade practices.

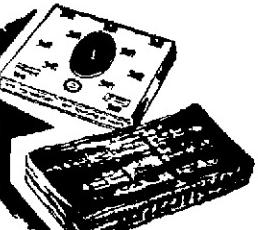

Now, Swift & Company has inaugurated an additional method of identification—the name "Swift" branded in dots on the side, just as it appears in this illustration.

LOOK FOR THE NEW BRANDING

Premium bacon has just the right proportion of fat and lean. The rich distinctive flavor of the genuine is always yours when you see the name "Swift" branded in dots down the side.

STOP THE FAT AND GET THIN

The way to reduction is to stop the formation of fat. Modern science has found that way—by turning your food into fuel and energy—by supplying a natural element that helps do that. It is much better than starvation. That modern scientific method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. Now the results in slender figures, new beauty and vitality, are seen everywhere.

Each box of Marmola contains the formula also the scientific reasons for results. So you know the effects are beneficial and why they all occur. Learn what so many have learned in 20 years about it. Do it now. Ask your druggist for a \$1 box of Marmola and learn what it means to you.

Forty calls to sick members were made at a meeting of the L. A. D. Bible class of Oakdale Evangelical church last night with Mr. and Mrs. Jacob Haas.

Mr. and Mrs. Henry H. Feltz, a man and woman, a meeting will be held with Mr. and Mrs. Feltz at their home on Monday evening.

Wash clothes in water softened with Melo—save $\frac{1}{2}$ to $\frac{1}{2}$ the usual amount of soap.

Clothes washed in hard water are hard to get clean. The hardness of the water combines with the soap and makes suds. Melo collects dirt. It gets into the fabric of the clothes. No amount of rinsing can get it all out.

But softens hard water with Melo and there isn't any suds. The water makes wonderful suds. Melo saves from $\frac{1}{2}$ to $\frac{1}{2}$ the amount of soap ordinarily used. With or without soap water softened with Melo is a wonderful cleaner. Get it at your grocer's.
